# OUR SERVICES

## 01 LAND SURVEY

db CONSULTANCY SERVICES perform single or multi disciplinary surveys on parcels ranging in size from small residential lots up to large commercial and industrial complexes. From the initial planning stages to the final completion of construction, our services are available by industrial discipline or in total on your project. As land becomes more precious and its value rises, and as engineering and mapping projects become more complex, the need for professional, reliable engineering and surveying services increases which is performed accurately, quickly, on time and at a fair price. We hope that you will give us the opportunity to meet these requirements on your next project. We perform the following services:

## 02 NOC CONSULTANT

db CONSULTANCY SERVICES works as NOC consultants and coordinator from 2012 for obtaining NOC, height clearance for structures such as Buildings, Masts, Chimney and Transmission Lines etc. fresh \ appeal process\ revalidation process\ renewal process \ aeronautical survey process etc. We have got extensive experience with AAI and Naval rules and regulations and procedures. We coordinate and consult for NOC all over INDIA. We are practicing since-2012 carrying out professional services and arranging technical Surveys needed for NOCs. We have successfully finished more than 5000+ projects all over INDIA including Apartments, commercial, residential projects, hospitals buildings, government buildings, etc.

## 03 NH ACCESS PERMISSION

db CONSULTANCY SERVICES, the consultant from 2022 for National Highway for obtaining access permission for commercial buildings, petrol pumps etc to the before said and has over 10+ successful endeavors in the service.
